Up to \$20 million is available for projects large and small.

Why Choose Us Vs.

A Traditional Lender?

When seeking a loan from a traditional financial institution, you'll be asked an array of questions and to supply mounds of documentation. But in most cases, all the lender wants to know is what collateral they can lend on and how the loan will pay off for them. QualiFi is different. Our team finds the best lending product(s) to suit our clients' goals. From our simple initial application to a quick seamless process to funding, our main goal is helping entrepreneurs.
